

## GATSBY

The Gatsby collection showcases contrasting monochromatic shades with sleek silver lines. Think lavish materials, shiny surfaces and eye-catching designs influenced by the Art Deco period mixed with smoked glass for added depth. Gatsby is a highly polished and luxurious collection with grey and taupe velvet upholstery to help soften the look. The sleek clocks and decorative accessories developed for this collection are ideal accents for any home or project which complete this stylish theme. The addition of natural greenery is the perfect contrasting colour to make this a very fresh and contemporary interior collection.

SINCE  1972
